Appliance/Mold Related Claims

2 appliance related losses (see definition below) are acceptable if remediated and completed Certificate of Appliance Related Water Damage Remediation Form PC-327 required with application.
Multiple mold related claims are acceptable if remediated and completed Certificate of Mold Damage Remediation Form PC-326 required with application.

APPLIANCE RELATED LOSS MEANS: a loss arising from the discharge or leakage of water or steam from an appliance that is the direct result of the failure of the appliance. An appliance means a household device operated by gas or electric current, including hoses directly attached to the device. The term includes air conditioning units, heating units, refrigerators, dishwashers, icemakers, clothes washers, water heaters, and disposals.

WATER DAMAGE LOSS MEANS: a loss arising from the discharge or leakage of water or steam that is the direct result of the failure of a plumbing system or other system that contains water or steam.

Any request for a quote when the risk has been declined for reinstatement within the past twelve months.	Decline
Customer with outstanding earned premium	Decline

Renewal Underwriting

Renewal policies may be referred for Underwriting evaluation if they fail to meet the new business eligibility criteria. Action may be taken at underwriter discretion where applicable under Texas law.

Routine inspections of dwellings may occur based on prescribed company practices to validate eligibility and replacement value.

The Hartford reserves the right to evaluate each application's exposure to loss on its own merit. As a result there will be occasions where a risk will be judged unacceptable due to the overall combination of risk factors.
